

THE RULE OF 400

WAR ERA VETERANS

Protecting your client's life's work

Helping families find more income to pay for home care

What would it take to generate \$1,500 per month?

\$1,500

MONTHLY INCOME

x 400

THE RULE

\$600,000

ASSET REQUIRED AT 3%

Why it matters

At 3%, \$600,000 generates \$18,000 per year -
or \$1,500 per month. The asset produces the income stream.

A simple way to think about monthly income

- Monthly income can have real capital value.
- The Rule of 400 turns a monthly amount into a capital equivalent.
- For families considering home care, more income can change the conversation.
